PROJECTS

Applicant Tracking System

ats-mateuszkuruc.onrender.com

JS, React, Redux, Node.js, Express, AWS, Material UI, Styled components, MongoDB

- Leveraged modern tools to build fullstack app for candidate pipeline management in IT recruitment
- Implemented token-based authentication for users and CRUD operations for candidate profiles
- Introduced file management with AWS S3, and store candidate data using MongoDB
- Frontend built in React, with Redux for state management. Backend written in Node.js with Express
- Ensured responsive design with the help of Material UI and Styled components with media queries

Marketing Portfolio Website

www.reklamfacebook.pl

Next.js, TypeScript, Tailwind CSS, Formik, Yup, Framer Motion

- Developed a highly functional and modern-looking portfolio website for online marketing specialist
- Implemented automation of the contact form to send formatted data to owner's address with backend API
- Optimized the app for speed, efficiency, accessibility and designed a user-friendly interface
- Incorporate smooth animations and page transitions with Framer Motion, built carousel and accordion items
- Implemented responsive design with great performance on mobiles, as most traffic comes from smartphones
